REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 12-15, 22, 23 and 31 are allowable over the prior art of record because the prior art of record does not teach the claimed processes including forming the claimed a-C:B:F layer. The closest prior art of record teaches forming amorphous fluorinated carbon which lacks the advantages of Applicant's claimed formed a-C:B:F layer such as increased thermal stability. While the secondary references teach a film containing carbon, fluorine and boron the secondary references fail to teach utilizing such a film for masking materials or for liner layers for metal films.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
